

Marking Form for Final Year Project
Assessment of Poster Presentation (MPhys/MMathPhys Students)

Name of Student

Name of Supervisor

Student ID

Name of 1st Marker

Name of 2nd Marker

Report on the Poster Presentation

Date:

The markers should make brief notes of the questions asked and the quality of the responses from the candidate, while viewing the poster. As soon as possible after the presentation (normally immediately) the markers should agree a grade for each of the main aspects, fill in comments and enter an agreed mark in the spaces provided below.

Comments (required)

Poster content and presentation

Understanding of background and
relevance of work done
(including literature knowledge)

Replies to questions well organised,
clear and concise

Use of poster for discussing work

Questions asked and quality of responses

Provisional Mark

See detailed Marking Guidelines on the Module Web pages for guidance on the descriptors.
The key below is a quick guide:
